Deluxe TM9V Furnace

Delivering Comfort. On every level. ClimateCare's TM9V Gas Furnace is ready to keep **you** & your home **even more** comfortable with high-performance efficiency along with a host of state-of-the-art features.

● High Efficiency Motor

The TM9V's **Premium** ECM High Efficiency Motor is not only good for the environment by reducing electrical demand but also reduces your operating costs.

● Two-Stage Heating

Two-stage heating operation includes two-stage gas valve, two-stage inducer motor operation and variable speed ECM blower operation to keep your family warm and comfortable all winter long.

● Computerized Board

Equipped with a Computerized Control Board offering High-Level Self-Diagnostic and Fault Codes for easy servicing.

● Safety First

Our advanced computerized module not only ensures optimum furnace performance but like a watch dog, constantly monitors all furnace functions to ensure safe, dependable and quiet operation for you and your family.

● Adjustable Delay

An adjustable delay allows for two-stage operation with the use of a simple single-stage thermostat for applications where additional thermostat wiring is not possible.

● Peace-Of-Mind Warranties

Lifetime Heat Exchanger Warranty · Standard Five-Year Parts Warranty, upgraded to a 10-year Total Parts Warranty, if registered online within 90 days of purchase · Also includes a Five-Year Complete Assurance Warranty. If the Heat Exchanger assembly (primary and/or secondary) fails due to a covered defect in the first 5 years after installation, ClimateCare will provide a replacement model, or if an exact replacement model is not available, an equivalent unit will be provided to the original purchaser. Refer to product warranty for full details.

Model TM9V is verified to meet ENERGY STAR® requirements.
